Program information	idahorescue.com/legacy-giving/

WAYS TO INCLUDE IARN IN YOUR PLANS

Will or trust: Discuss a specific amount, a percentage, or a gift from the remaining estate with your attorney.

Beneficiary designation: Ask your advisor and account provider about naming IARN as a beneficiary of a retirement account, life insurance policy, or other eligible account.

Other gifts: Contact Erin before arranging a gift of securities, property, or another asset so IARN can discuss acceptance and coordinate with your advisor.

LEGACY PET PROGRAM: ELIGIBILITY AND PLANNING

Available only to people who include IARN in their legacy giving plans. Pets must be reviewed and enrolled in advance through a written agreement with IARN. A legacy gift alone does not automatically enroll a pet or create a care agreement.

Contact Erin to discuss your pets and their care needs. Confirm the arrangement in writing before naming IARN as a caregiver. Care commitments, eligible animals, and activation procedures are set out in the enrollment agreement.

BEFORE FINALIZING YOUR DOCUMENTS

Confirm recipient details and gift acceptance with Erin. Coordinate your estate documents, beneficiary forms, and any approved pet-care plan with your professional advisors. Let Erin know if you have already included IARN in your plans.

This handout is general information, not legal, tax, or financial advice. Your own advisors should prepare and review all documents. You do not need to share a full will or account numbers to begin a conversation with IARN.
